Reimagining *how children play*

You want choices. We've got them, along with the design expertise to take your ideas and make them real. Whether you want long lasting steel, recycled materials that stand up to harsh salt air, an elaborate theme, or something entirely different, let's combine your imagination with our expertise and together we can reimagine the way children play.

ADVENTURE SERIES

Budget-friendly with a full dose of excitement. This series offers design flexibility to meet small space requirements, features integrated shade options, and uses no clamps or collars.

POST DIAMETER	DECK SIZE	DECK HEIGHT	AGES
3.5"	36"/46.5"	Up to 8'	6 mo.-12 yrs.

EXPEDITION SERIES

With its sturdy design and C-line connection, the 5" post and deck system is easy to install, offers the most design flexibility, and is ideal for inclusive play designs.

POST DIAMETER	DECK SIZE	DECK HEIGHT	AGES
5"	48"	Up to 8'	2-12 yrs.

THEMED SERIES

There's no limit when designing a themed playground. Our talented team of skilled professionals can bring your ideas to life utilizing our Expedition or Recycled Series as the base.

POST SIZE	DECK SIZE	DECK HEIGHT	AGES
5" & 6"	42" & 48"	Up to 8'	6 mo.-12 yrs.

RECYCLED SERIES

Our recycled playgrounds are an ideal option for natural play or coastal environments. The decks, posts, and barriers utilize 100% recycled content.

POST SIZE	DECK SIZE	DECK HEIGHT	AGES
6"	42"	Up to 8'	6 mo.-12 yrs.

Supporting *inclusive play*

The benefits of bringing your community together with an **inclusive playground** are immeasurable.

Inclusive play environments provide unique opportunities for individuals of all ages and abilities to engage in their right to play. Outdoor play environments that break down both physical barriers to access and social barriers to participation can unite communities in meaningful ways!

.....

POINTS TO CONSIDER

Picnic Shelter

Complete Your Space Shade & Shelter

Our fabric shade and all-steel structures come in a variety of sizes and styles. Our fabric structures are available with or without our unique Glide Elbow™ fabric release mechanism.

Playground Shade

We have over 30 rectangle and square shades specifically designed for your play structure (and hundreds more available for other uses, too!). These designs are available in a variety of colors to match any play environment and are a great economical choice. To keep children safe, follow these guidelines when choosing a shade for your play structure:

- 6’ min. clearance from shade columns to play structure
- 7’ min. clearance from play surface to shade fabric
- 3’ min. clearance from top of play structure to shade fabric

Bleacher Shade

We have a variety of cantilever options suitable for shading the bleacher unit at your sports field. Additionally, these design make for perfect car parking shades.

Standard Cantilever Shade

18’ x 20’, 18’ x 27’, 18’ x 36’
Surface or In-Ground Mount
8’, 10’, or 12’ Height
With or Without Glide Elbow™

Table Shade

Our umbrella shades are ideal for shading picnic areas, benches, and small play areas, such as a music area. Umbrellas are a simple shade solution but they make great visual impact.

Single Post Umbrella Shade

Square, Hexagon, and Octagon Shapes
Surface or In-Ground Mount
8’, 10’, or 12’ Height
With or Without Glide Elbow™

Picnic Shelter

We offer a full line of all-steel shelters that are suitable for picnic areas, bench seating, outdoor performance space, and even bleachers. Have something in mind? Ask your representative for our complete catalog.

We Use Quality playground materials

At Superior, we only use quality playground materials. Our playgrounds are proudly made in the USA and are built to last. Whether you are purchasing a climber or a full structure, we guarantee fun for years to come.

1

Our rotationally-molded plastics have anti-static inhibitors.

Our rotationally-molded plastics, such as those used for slides and tubes, are made of ¼" thick low density polyethylene (LDPE). They are UV stabilized for reduced fading and also contain anti-static inhibitors.

2

Our textured HDPE panels are strong and UV stabilized.

Our ¾" thick textured high density polyethylene is used for products such as our activity panels. With UV stabilization, we ensure your carefully selected color will remain bright and colorful for years to come. These panels are stain and graffiti resistant and will not splinter or crack.

3

Our powder coat leaves your structure protected.

Our steel components are primed at the welded areas and coated with 3-5 mils of powder coat to protect your playground from fading and rust. Additional extra-protection coating options for regions, such as coastal, are available.

P.S. Our post caps aren't just pretty.

From easy in-field installation to a unique two-color look, our aluminum alloy post caps offer many great benefits. Our super-tough post cap design allows for less water access, making our posts more durable in the field. Once installed the post caps can't be removed, stopping unwanted vandalism.

4

Our modular shades block harmful UV rays.

Our shade fabric blocks 91%-99% of harmful UV rays, depending upon the color you've chosen. Our fabric is also flame retardant, with some of our color choices being California Fire Marshal certified.

5

Our steel decks and stairs are among the thickest in the industry.

Our steel decks are formed from 12-gauge hot-rolled steel body — among the thickest in the industry — and are coated with UV stabilized PVC for a softer play surface. They're also sprayed with a PVC textured coating that increases foot traction, are perforated for drainage, and are lead-free.

6

We offer stainless steel hardware, so you won't worry about rust.

99% percent of the hardware we use is stainless steel, with less than 1% being corrosion-resistant coated steel. Our hardware is packaged individually and labeled, allowing for more efficient installation.

We Make It easy to buy

Superior makes it easy to buy (no lengthy buying process!) by having a nationwide team of SRP Certified Partners and by having contracts with the following organizations.

.....

State-Specific Opportunities

The NASPO ValuePoint Cooperative Purchasing Organization is available to all public agencies, institutes of higher education, political subdivisions, and, in some cases, non-profit organizations in states who have obtained a NASPO ValuePoint Participating Addendum. Currently, we have partnered with the following states under NASPO ValuePoint Master Agreement No.: 6482.

- Kansas
- Montana
- New Mexico
- New York
- North Dakota
- Oregon
- Oklahoma
- South Carolina
- South Dakota
- Utah
- Washington
- And More!

For Government Entities

BuyBoard is an online purchasing cooperative that gives its members best pricing on products, equipment, and services that they use every day. Members save time and resources because the competitive procurement process has already been completed. BuyBoard's nationwide members include those in public schools, municipalities, county government, and all types of local government agencies and non-profits.

HGACBuy is a cooperative purchasing network available to local governments, state agencies, and certain non-profit corporations nationwide. All products offered by HGACBuy have been awarded through a public competitive process. To become a member of HGACBuy and to view products like ours, visit hgacbuy.org.

For Businesses

Marlin Capital Solutions is a direct lender providing financing to small and mid-size businesses so they can acquire new equipment and technology while preserving capital. Their customers include equipment dealers, manufacturers, distributors, and small business establishments.

GSA Advantage!® is an online cooperative purchasing program that provides access to thousands of products and services. State and local government entities can take advantage of this buying power to get you the best value and price.

For Everyone

Our Certified Partners have extensive knowledge and training in all Superior products. Find your closest representative by visiting srpplayground.com and clicking "Contact a Rep."

We Meet or Exceed *industry standards*

In our effort to provide quality and safe play products for children, our products meet or exceed the standards set forth by the below organizations. Additionally, we follow our own strict in-house standards and guidelines.

.....

International Play Equipment Manufacturers Association™

In the interest of playground safety, the International Play Equipment Manufacturers Association (IPEMA™) provides a third-party certification service whereby a designated independent laboratory, TÜV SÜD America Inc., (TÜV), validates an equipment manufacturer's certification of conformance to the standards below.

- ASTM F1487-11, excluding sections 7.1.1, 10 and 12.6.1: Standard Consumer Safety Performance Specification for Playground Equipment for Public Use
- CAN/CSA-Z614-14, excluding clauses 9.8, 10, and 11: Children's Playspaces and Equipment

A list of current validated products may be viewed on their website at www.ipema.org. SRP is a member of this organization.

American Society for Testing and Materials

The American Society for Testing and Materials (ASTM) is an independent and world renowned developer of technical standards utilized in testing a multitude of products. ASTM developed F1487 Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use. The current standard is F1487-11, published in 2011.

U.S. Consumer Product Safety Commission

The U.S. Consumer Product Safety Commission (CPSC) presents safety guidelines through the publication of their Public Playground Safety Handbook. This handbook promotes greater safety awareness among those who purchase, install, and maintain public playground equipment. The handbook can be viewed on the CPSC's website, cpsc.gov.

United States Access Board

The U.S. Access Board is a federal agency that promotes equality for people with disabilities. They've developed guidelines and standards for built environments, such as playgrounds.

MADE IN THE USA

ISO 9001 and ISO 14001

ISO industry certification processes are issued by International Organization for Standardization. ISO 9001 is used to measure manufacturing standards and to certify company compliance with quality management systems covering design, development, production, installation, inspection, and testing. ISO 4001, also known as the "Green Certification," specifies the requirements of an organization having an environmental management system (EMS). SRP's steel playground line is manufactured in an ISO 9001 and ISO 14001 certified facility.

PCI 4000

Certification by the Powder Coating Institute recognizes competency and processes in place to consistently produce high-quality powder coated products. PCI certification is the result of an extensive and rigorous audit process and SRP's steel playground manufacturing facility has this certification.

In-House Standards

At Superior, we only use quality playground materials. Our playgrounds are proudly made in the USA and are built to last.

To ensure the safest play for your children, we offer:

- Quality control inspection on all parts and shipments
- All products must pass inspection in our IPEMA Certified In-House Testing Facility
- In-house production of most products
- All products meet or exceed CPSC, ASTM, and ADA Safety Guidelines
- On-staff CPSI certified employees
- Local field factory trained installation technicians
- Direct connect component attachment system
- Products constructed from Allied's heavy-wall galvanized steel tubing, which is protected by Allied's patented Flo-Coat® process that uses triple-coat corrosion protection (zinc, conversion coating, and clear organic topcoat) to provide a smooth, shiny product appearance that is unmatched in terms of strength and durability

Our Leading *warranty*

Our warranty guarantees years of unlimited fun. **View our full warranty by visiting us online at srpplayground.com/warranty.**
