ROPE CLIMBERS

Reach New heights

Our collection of Ascend Rope Climbers not only includes freestanding rope climbers, but play systems as well. These exciting new climbers are perfect for parks and other outdoor play areas that allow children to stay active while challenging their climbing capabilities. With over 25 design options available, discover what best fits your space requirements and budget.

FEATURES & BENEFITS

Tough & Durable

Our climbers feature some of the toughest and most durable cabling — a whole 20mm in diameter to be exact. Our rope is made from six galvanized steel reinforcing cables weaved around a core to create a rope unlike any other.

Soft to the Touch

We add a nylon cable coating and UV protectants to ensure they're resistant to fading, wearing, and fraying. What's left is a durable and strong rope that's soft to the touch.

Variety

Choose from three climbing options: freestanding net climbers, designs that allow you to integrate the design directly into your play structure, or whole net play systems.
